Ashley,

Could you ask Dudek to amend Bullet 6 of PDF PS-1 to state “*Approximate Total – Fire Protective Services Contributions*” and ask why they are removing the solar panel trackers for public benefit purposes?

Best regards,

James Pine

Hi James,

Can you please review the attached FPPs and confirm whether they address your concerns and can be accepted as complete?

Thanks,

Ashley

Hi Ashley –

Here are the FPPs with the revisions you requested below incorporated. Please let me know when they are accepted by the County (I'll need to add the date of acceptance into the PD of the EIR).

Thanks,
Megan

Hi Megan,

The County Fire Authority has a couple minor comments on the FPPs for TDS and Rugged. Can you please make the following edits and shoot the FPPs back over to us for final approval?

- Please revise the discussion of PDF-PS-1 (Page 22 for Rugged Solar and page 20 for TDS) as follows:
 - When discussing bullet point one (Type VI engines) please add in that the actual costs may be more at the time of the execution of the agreement.
 - When discussing bullet points two through four please add in that there will be an annual escalator.

On a side note, I received your message regarding scheduling. I will confirm with Jim when he returns to the office tomorrow and let you know about the changes you suggested.

Thanks,

Ashley
